A PUBLICATION OF THE DESK AND DERRICK CLUB OF LAFAYETTE

### **OUR PURPOSE**

The purpose of the Association of Desk and Derrick Clubs is to promote the education and professional development of individuals employed in or affiliated with the petroleum, energy and allied industries and to educate the general public about these industries.

### **OUR MISSION:**

Our mission is to enhance and foster a positive image to the global community by promoting the contribution of the petroleum, energy and allied industries through education by using all resources available.

February 2019

Expecting things to change without putting in any effort is like waiting for a ship at an airport. Put in the effort; be part of the change.

The 2019 Budget and Planning Meeting was a great success! You all need to know that the 2019 Board is very dedicated to you, the Association members. They each have a tremendous amount of personal leadership, enthusiasm and passion to bring to this Association.

At the Budget and Planning Meeting we did a lot of work updating our Strategic Plan. Christina Forth is in the process of finalizing and putting it all together for us. As soon as this is done, we will share it with you. It is very exciting and definitely taking us in the right direction.

The Rules Committee has set February 15, 2019, as the deadline for proposing amendments to the ADDC Bylaws and Standing Rules. If your club or region has any suggestions, please forward these to Val Blanchard at [vblanchard@gmail.com](mailto:vblanchard@gmail.com), Rules Committee chairman, by the deadline.

Remember, March is Desk and Derrick Awareness Month. Start making plans to invite a prospective member to your next meeting and inform them of the invaluable educational and networking opportunities available. Share your passion and your excitement!

*Terry Ligon*

## *Southeast Region Director*

*February 2019*

*Evelyn McCurley-  
Ingram  
Southeast Region  
Director  
601-335-1820  
feelinfroggy0713@gmail.com*

*Dear Southeast Region Members*

*Well it's February, the month of Love. Happy Valentine's Day and a great celebration of the Mardi Gras Season.*

*I want to encourage you to register for the Southeast Region Meeting on April 24<sup>th</sup> - 28<sup>th</sup> in Victoria, Texas. The forms will be available online soon. We have a new location to visit and they are planning a great meeting for you. There will be some great fieldtrips and seminars for your enjoyment. We are offering a Certification class this year.*

*The deadline to turn in club membership applications and dues is February 1<sup>st</sup>. These must be turned into the Evelyn Green (ADO REP) and the Regional Treasurer by the deadline of February 28<sup>th</sup>.*

*I recently sent the Committee listing to the Presidents to share with each Committee Rep for this Region. You can go to the ADO site and copy last years info for a guideline. This listing also shows you who the ADDC Reps are too. I am proud of our members as you step up when needed.*

*If you have any concerns or issues you would like for me to bring before the ADDC board, please let me know. You can reach me by phone or email. Always remember, I am Your voice and I represent you, the members of the Southeast Region.*

*Evelyn McCurley-Ingram*

*Leaping to Higher Levels of  
Education, Professionalism and Achievement*

## February 2019

Happy Valentine's Day! Love is in the air and I hope you all had a fantastic day.

I am looking forward to our February meeting, which will be held on our normal 3<sup>rd</sup> Wednesday of the month (2/20/19). Please be reminded that the February meeting is closed to guests, as we will be discussing our finances/budget.

I hope everyone received the FIRST annual Southeast Region Meeting packet. It is already uploaded to our club's website – thank you Brittney! I also wanted to mention there is a dedicated FaceBook page for the Southeast Region meeting "ADDC Southeast Region Meeting". The field trips and seminars look really good. Anyone interested should get registered soon. Don't forget to send your registration paperwork to Sarah.

I wanted to send out a big THANK YOU to Vickie Chauvin for a very successful Superbowl donation pool. The winners were as follows:

1 <sup>st</sup> Quarter	Tina Breaux
2 <sup>nd</sup> Quarter	Dorothy Semon
3 <sup>rd</sup> Quarter	Ada Weeks
Final Score	Ada Weeks

But the real winner, in my opinion, was the Desk and Derrick Club of Lafayette which profited \$300.00 from the donation pool.

I'm looking forward to our speaker this month who will be Mr. Jim Dore. He will give us an update on the Oil and Gas industry.

Hope to see all of you next Wednesday (2/20).

*Sheri L. Bienvenue*

We welcome guests to attend one monthly meeting per calendar year with the option of becoming a member.

Please email guest information to [ddlafayettehouse@gmail.com](mailto:ddlafayettehouse@gmail.com) if you would like to have a guest attend.

**House Chair**  
Brandy Solice

**Jim Dore**

Jim Dore's passion for our state has been the foundation of his whole career and he's running to build a better Lafayette and Louisiana for his children and grandchildren.

Born and raised in Louisiana, he has spent his life working to build businesses that create reliable, sustainable, good paying jobs within our state. Jim grew up through the ranks, learning from his brother and mentor, Bill. He guided several business units in the company and later led the Eastern Hemisphere for the largest off-shore construction company in the world. Jim based his career and reputation on the idea that a culture of family and team work is the basis on which any successful company is built. He created award-winning safe working environment strategies to keep all his employees in the oilfield safe to return to their families. He believes that with trust, anything is attainable.

Jim returned to college to learn from younger generations how to better communicate with everyone working for him and at the same time, received his MBA from UL-Lafayette.

Now, Jim is the CEO of Beyond Consulting L.L.C., taking his forty years of experience in the working world to teach other leaders what he has learned about developing and maintaining successful companies. Leaning on his track record of not only financial victories, but his ability to encourage partnerships between all members of the workplace, Jim teaches others to become exceptional leaders and develop skills needed for personal and professional growth. He now chairs a peer group of executives in the Lafayette area where they exchange best practices and learn what is needed to succeed in business and in personal life.

Jim is proud to serve on the board of directors of the Louisiana Gulf Coast Oil Exposition, the board of the Lafayette International Center Foundation and the Leukemia & Lymphoma Society. Despite all his accolades and professional accomplishments, Jim is most happy and proud to be a husband, a father and a grandfather.

## Faith House Items for February:

- ♦ gently used or new towels, hand towels, and wash cloths.

### 2018 Perfect Attendance

Delvie, Carol, Ramona, Kay, Ada, & Kathy

*80% of success is showing up! ~Woody Allen*

## JUST A LITTLE *Reminder*

- ♦ Sign up for the upcoming seminar. See page 9 for more details.
- ♦ All members are welcome to attend next board of directors meeting 3/6 at 201 Energy Parkway Suite 410
- ♦ Southeast Region meeting packet went out. You can now register.

## U.S. expects record oil production in 2019 & 2020 may be good sign for Louisiana oil sector

The United States expects domestic oil production to reach new heights this year and next, and that prices for both crude and gasoline will be lower than they were in 2018.

Government forecasters also are sticking to their forecast that the United States. Already the world's biggest oil producer will become a net exporter of crude and petroleum products in 2020. Most of the increase is expected to come from the Permian Basin in Texas and New Mexico, where production has been booming for several years as operators use hydraulic fracturing and other techniques to squeeze more oil and gas from shale formations.

The rising production in the Permian basin likely will continue to benefit Louisiana's downstream sector, as petrochemical companies and refiners continue to source plentiful oil and natural gas from neighboring Texas, said David Dismukes, head of the LSU Center for Energy Studies. The flip side is that the attraction to cheaper, abundant drilling in the Permian Basin has detracted from onshore production in Louisiana in recent years. A rebound in prices from the deep slump that started in 2014 is generating a little more interest in the state's natural gas supplies in northwest Louisiana and potentially developing oil across the Louisiana 'disproportionately exposed' to Venezuelan oil targeted in U.S. sanctions midsection of the state where shale formations are harder to drill than in Texas.

The shale boom has helped fuel billions of dollars in investment in Louisiana's petrochemical sector, where companies are building large manufacturing complexes along the Mississippi River and near Lake Charles.

"People kind of forget about it now, but 4, 5, 6 years ago, people were questioning whether these were prudent investments," Dismukes said. "As we've moved into this kind of revolution, that underscores this really was a good investment decision for the industry as a whole."

Dismukes added the fact that the U.S. is becoming a net exporter of oil is a good sign for Louisiana's oil sector, which is an exporter of petroleum, especially refined products. Plus, the state's liquefied natural gas exporters will benefit, as they continue moving forward with multibillion-dollar LNG export facilities, especially in the Lake Charles region.

LSU researchers last fall cut their forecast for job growth in the oil and natural gas-producing sector in Louisiana, mainly because of geopolitical tensions and price uncertainties. Still, the LSU forecast was a "mixed bag" for Louisiana oil and gas, and projected job growth in both the production and downstream industrial sectors.

The price drop outlined in the U.S. Energy Information Administration report likely won't spell doom for deepwater oil drillers, said Eric Smith, head of the Tulane Energy Institute. Oil companies generally make investment decisions based on longer time horizons than the EIA's short-term outlook.

"They're worried about what prices are going to be in 2021, 2022," he said, adding "\$54 isn't going to kill them." However, offshore oil producers have shifted to more efficient drilling projects that don't require as much capital investment, he said. Dismukes noted the increased efficiencies mean not as many workers will be employed by offshore drillers.

## U.S. expects record oil production in 2019 & 2020 may be good sign for Louisiana oil sector

Advocate staff and wire report FEB 12, 2019 - 6:08 PM

The EIA said Tuesday that it expects the United States to pump 12.4 million barrels of crude a day in 2019 and 13.2 million barrels a day in 2020. The January average was 12 million barrels a day, up 90,000 from December.

"The U.S. energy industry continues to transform itself," said Linda Capuano, administrator of the agency, which is part of the Energy Department. The agency expects U.S. benchmark crude to average \$54.79 a barrel this year and \$58 next year, down from \$65 in 2018. It expects internationally traded oil to average \$61 a barrel this year and \$62 next year, down from \$71 in 2018.

The 2020 price forecast is \$3 a barrel lower than the agency had previously predicted. Capuano said strong growth in oil production worldwide would push prices lower. That should produce nationwide average gasoline prices of \$2.47 a gallon this year and \$2.56 next year, down from \$2.73 in 2018, according to the agency's shortterm energy outlook.

Oil prices tumbled in the last three months of 2018 on forecasts that global economic growth will weaken and hurt demand at the same time that production is surging in the U.S. Concern about oversupply led OPEC and its allies, including Russia, to agree in December to limit output during the first half of 2019. On Tuesday, OPEC reported that its member nations sharply reduced production in January.

With rising production in the Permian Basin, the Energy Information Administration estimates that U.S. net imports of crude and petroleum products fell from 3.8 million barrels a day in 2017 to 2.4 million barrels a day in 2018.

The agency forecast that net imports will decline to about 900,000 barrels a day this year, then turn into a net export of about

### U.S. oil rig count rises by 2, Baker

Feb. 15, 2019 1:11 PM ET|About: [The United States Brent Oil... \(BNO\)](#)|By: [Carl Surran](#), SA News Editor

The total U.S. rig count adds 2 to 1,051 after gaining 4 a week ago, according to Baker Hughes' [latest weekly survey](#). The count of active U.S. oil drilling rigs rose 3 to 857 following last week's gain of 7, while gas rigs lost 1 to 194. WTI crude maintains earlier gains, now +2% to \$55.49/bbl.

Area	Last Count	Count	Change from Prior Count	Date of Prior Count	Change from Last Year	Date of Last Year's Count

# Mardi Gras King Cake

## Nutrition Facts

1 slice: 227 calories, 4g fat (1g saturated fat), 10mg cholesterol, 123mg sodium, 44g carbohydrate (23g sugars, 1g fiber), 3g protein.

## Ingredients

- 1 package (1/4 ounce) active dry yeast
- 1/2 cup warm water (110° to 115°)
- 1/2 cup warm milk (110° to 115°)
- 1/3 cup shortening
- 1/3 cup sugar
- 1 teaspoon salt
- 1 large egg
- 4 to 4-1/2 cups all-purpose flour
- 2 cans (12-1/2 ounces each) almond cake and pastry filling

### GLAZE:

3 cups confectioners' sugar, 1/2 teaspoon vanilla extract, 3 to 4 tablespoons water, and purple, green and gold colored sugar

## Directions

- In a large bowl, dissolve yeast in warm water. Add the milk, shortening, sugar, salt, egg and 2 cups flour. Beat on medium speed for 3 minutes. Beat until smooth. Stir in enough remaining flour to form a soft dough (dough will be sticky).
- Turn onto a floured surface; knead until smooth and elastic, about 6-8 minutes. Place in a greased bowl, turning once to grease top. Cover and let rise in a warm place until doubled, about 1 hour.
- Punch dough down. Turn onto a lightly floured surface; divide in half. Roll one portion into a 16-in. x 10-in. rectangle. Spread almond filling to within 1/2 in. of edges. Roll up jelly-roll style, starting with a long side; pinch seam to seal. Place seam side down on a greased baking sheet; pinch ends together to form a ring. Repeat with remaining dough and filling. Cover and let rise until doubled, about 1 hour.
- Bake at 375° for 20-25 minutes or until golden brown. Cool on a wire rack. For glaze, combine the confectioners' sugar, vanilla and enough water to achieve desired consistency. Spread over cooled cakes. Sprinkle with colored sugars.
