DESRÖCK

A PUBLICATION OF THE DESK AND DERRICK CLUB OF LAFAYETTE

OUR PURPOSE

The purpose of the Association of Desk and Derrick Clubs is to promote the education and professional development of individuals employed in or affiliated with the petroleum, energy and allied industries and to educate the general public about these industries.

OUR MISSION:

Our mission is to enhance and foster a positive image to the global community by promoting the contribution of the petroleum, energy and allied industries through education by using all resources available.

July 2019

As we approach the second half of 2019 and the summer months of vacations, we must not let our passion for ADDC wane. Let's all continue the drive to increase our membership and spread the word about Desk and Derrick.

We are proud to announce we have 1096 members; this is exciting as we budgeted for 1080 members. We are over our projected number of renewals for our budget this year.

The 2019 Nominating Committee has worked very hard this year and I am happy to present the nominees for the slate of officers for 2020:

President-Elect	Evelyn Green
Secretary	Casi Nichols
Treasurer	Philana Thompson
	Maggi Franks

The forms and photos of the nominees were reviewed by the members of the 2019 Nominating Committee and were approved as received.

We are drawing near to our 68th Annual Educational Conference and Convention. I hope you have all sent in your registrations and are looking forward to a great experience in Kansas City. The Central Region is working very hard to make this a memorable time for everyone.

We have THREE free seminars --- "Programs! Programs! Get Your Programs Here!", "Helpful Hints for Small Clubs" and "Social Media Marketing: Facebook and Twitter". I think you will find these seminars informative and entertaining. And, it never hurts to learn more about this association and what it takes to make it run. It will be a great learning experience.

Be sure you get your official Credentials Report sent in for your delegate and alternate so that your delegate will be eligible to vote at the convention. This form must be sent in to your regional Credentials representative and on record so that your delegate can vote for you, the member.

I wish each of you a great summer! Happy Canada Day on July 1st to our Canadian members and Happy Independence Day on July 4th to our American members.

Remember --- "In the waves of change we find our direction." --- Anonymous

Terry Ligon

Southeast Region Director

July 2019

Dear Southeast Region Members

*Evelyn McCurley-
Ingram
Southeast Region
Director
601-335-1820
feelinfroggy0713@gmail.com*

July is here and the weather is really warming up. Please keep your eye on weather situations and always be prepared. I am looking forward to fall and our ADDC Convention in Kansas City, Mo.

The Registration forms for the ADDC Convention you have received. The meeting will be September 25th - 28th at the Kansas City Marriott Country Club Plaza. There are many fieldtrips, seminars and many other things to see and do. The site to use for tickets to Kauffman Stadium to see the Royals and the Atlanta Braves play at 7:15 PM on September 24th is listed. Site is www.mlb.com/ballpark/netting to order tickets. Deadline to order is 5:15 PM on the 24th.

I hope you are inviting guests to your monthly meetings. We now have 1,096 registered this year. This is an increase in our projections for this year. This growth helps us maintain a positive future for our members and offer education to our newer members. "Greater Knowledge - Greater Service".

If you have any concerns or issues; You can reach me by phone or email. Always remember, I am Your voice and I represent you, the members of the Southeast Region.

Evelyn McCurley-Ingram

July 2019

Hunker down members! As I write this letter, everyone is in Hurricane prep mode. I love that Lafayette is taking precautions seriously, but really --- shelves are bare and there is no more bottled water! One thing a Hurricane is good for and that is a spark to the economy. Anyhow, I pray that everyone stays safe and *hydrated*.

Mr. Jeremy Angelle is lined up to be our speaker for July. He is the Sr. Vice President of Technology and Engineering for Frank's International. I love the name of his presentation "A Story of Can Do". Cannot wait to hear the story! Please invite your friends, family and co-workers. We would like to have a nice crowd for him.

Start thinking about next year. In a couple of months, we will begin planning for 2020. Is there a committee that you've been eyeing? See improvements on a particular process? Want to learn more of the inner workings of the club? **WELL THIS IS YOUR TIME!** Make sure and sign up for a committee chair or co-chair. We would love to see a full slate of candidates for the 2020 Board of Directors. This is **YOUR CLUB**. YOU will only get out of it what YOU put in it.

Hope to see all of your beautiful smiling faces next Wednesday 7/17.

Sheri L. Bienvenue

We welcome guests to attend one monthly meeting per calendar year with the option of becoming a member.

Please email guest information to ddlafayettehouse@gmail.com if you would like to have a guest attend.

Oil Reaches Over \$60 First Day of July

Everyone who watches WTI crude oil prices knows this is a really good thing for our industry. In the last couple months oil prices dropped over \$10 almost falling below

Oil prices are very fragile and can change direction at any time. Recently the U.S. vs China trade war and the tensions in the Middle East along with attacks on oil tankers

Oil Prices Hit Biggest Weekly Gain in 2 Years as Trump Pressures Iran

Oil rocketed to its biggest weekly gain in more than two years as U.S. President Donald Trump's aborted air strikes against Iran left Middle East tensions simmering with the endgame uncertain.

Crude futures rose in New York on Friday to complete a 9.4% rally for the week. Trump tweeted that he called off raids because of concern the death toll wouldn't have been "proportionate" to Iran's downing of an American spy drone earlier this week. Trump said he was in "no hurry" to respond, despite a series of provocations in the oil-rich region.

Oil Prices Hit Biggest Weekly Gain in 2 Years as Trump Pressures Iran

Source: Oilfield 1

The canceled attack sent a "very confusing" message, Daniel Yergin, an oil historian and vice-chairman at IHS Markit Ltd., said in a Bloomberg TV interview. "The fear is that this could pretty quickly escalate. There's plenty of room for accident, misunderstanding, future incidents. The Iranians are in a corner."

West Texas Intermediate for August delivery closed 36 cents higher on Friday at \$57.43 a barrel on the New York Mercantile Exchange. The U.S. benchmark notched its biggest weekly increase since December 2016. Brent for August settlement rose 75 cents to \$65.20 on London's ICE Futures Europe Exchange. Gasoline futures, meanwhile, jumped 3.9% as a fire raged at the biggest refinery on the U.S. East Coast.

Hostilities have been mounting in the Persian Gulf region, source of one third of the world's oil, with the drone incident, missile strikes on Saudi Arabia and an attack on tankers near the Strait of Hormuz. On Thursday, a rocket exploded near an Exxon Mobil Corp. workers' camp in Iraq.

An American attack on Iranian targets, which would have included air strikes, was close to being carried out when it was halted, according to a U.S. administration official who was granted anonymity to discuss a national security matter. The official wouldn't discuss whether the plan might be revived.

July Guest Speaker

FRANK'S
INTERNATIONAL

Jeremy Angelle

Sr. Vice President Technology and Engineering

Topic: Frank's International "A Story of Can do"

Jeremy has 19 + years' experience in technology development, successfully bringing new products to market, drilling operations, providing leadership to complex GOM operations, negotiating contracts, and maximizing business opportunities. REPUTATION for thinking "out-of-the box" to solve problems, and proven ability to lead engineering, technology, commercial, and operational activities to fulfill strategic objectives. 50+ US & FOREIGN PATENTS.

A FEW NOTABLE ACCOMPLISHMENTS AT FRANK'S INTERNATIONAL

- *Introduced and implemented over 50 new successful product lines.*
- *Primarily involved in acquiring Black Hawk Specialty Tool (Frank's biggest acquisition to date).*
- *Implemented & formalized commercial contracts division.*
- *Substantially revenue by renegotiating contracts with primary GOM clients.*
- *Researched, designed & implemented high capacity drill pipe equipment = successfully gaining majority of market & achieved industry records.*

Visit Jeremy on LinkedIn to learn more: [linkedin.com/in/jeremyangellepe](https://www.linkedin.com/in/jeremyangellepe)

We would like to send our a very warm WELCOME to some of our newest members, **Monica Bellot-Hebert with SAIA, Nicole Needham with LAGCOE, and Kristian Breaux with Standard Law.**

Thank you so much for becoming a member of Desk and Derrick Club of Lafayette! We're thrilled to have you on board and can't wait to get to know you ladies more!

LA Highway 1 is America's access to oil and gas

LMOGA in the News Lori LeBlanc | BIC Magazine June 10, 2019

Many of us will travel along LA Highway 1 in Lafourche Parish, Louisiana, this summer for a relaxing weekend on Grand Isle with family and friends or a world-class saltwater fishing trip in Fourchon. Did you know that this two-lane state highway traversing quiet bayou communities like Golden Meadow and Leeville is also America's access to oil and gas in the Gulf of Mexico?

Supporting 16 percent of domestic crude oil production and 4 percent of its natural gas production, LA 1 in southern Lafourche Parish is critical to our nation's energy and economic security. It is the only land route to the bustling Port Fourchon, America's busiest intermodal energy port, and the Louisiana Offshore Oil Port (LOOP). Together, LA 1 and Port Fourchon service 100 percent of Deepwater oil and gas production in the Gulf of Mexico, representing \$4.5 billion in revenue to the U.S. Treasury and a \$3.4 billion economic impact on the state of Louisiana. How many two-lane highways across the U.S. can claim that kind of contribution?

As Deepwater activity increases, so does the role LA 1 plays in delivering people, products and services that fuel our offshore oil and gas industry and our economy. According to the LA 1 Coalition, an organization advocating for improvements to this critical highway, about 270 marine vessels depart Port Fourchon each day, delivering equipment and supplies to offshore operations in the Gulf. The equipment and supplies arrive at the port on commercial trucks via LA 1, with an estimated 24,000 trucks traveling along the highway to Port Fourchon during peak months.

That's not all. LA 1 supports over \$40 million in seafood production a year, provides highway access for over \$528 million in coastal restoration projects, and is the sole evacuation route for 1,200 residents and up to 15,000 visitors to Grand Isle during the summer travel season. LMOGA members appreciate these tremendous contributions of LA 1, and we also know that without completion of the LA 1 Improvement Project, all of these contributions are at risk.

The LA 1 Improvement Project includes upgrades to the highway infrastructure along the LA 1 corridor from U.S. Highway 90 to Port Fourchon and Grand Isle to protect the vulnerable, at-grade highway from flooding, reduce weather-related road closures, support economic growth in the region, and improve traffic safety and emergency response. The first phase of the project, an 11-mile elevated highway from Leeville to Fourchon, was completed in 2011 with funding in part from a federal loan and bond sales that are being repaid with toll collections.

Phase 2 of the project includes 8.3 miles of elevated highway between Golden Meadow and Leeville. Construction on the first segment of Phase 2 has begun with funding from the state, industry partners, the LA 1 Coalition and the Greater Lafourche Port Commission. Completing Phase 2, however, will require additional money.

A bill offered by Rep. Tanner Magee of Houma in this year's legislative session provides dedicated funding for the LA 1 Improvement Project and other state infrastructure needs from money set aside by the state for economic damages resulting from the 2010 Gulf oil spill and subsequent offshore drilling moratorium. With the passage of dedicated state funding for LA 1, the state will be able to use the funds as a match to apply for a federal grant to complete Phase 2 of the LA 1 Improvement Project. LMOGA strongly supports these efforts to secure the LA 1 corridor and the role it plays in offshore oil and gas production.

This two-lane highway originally built to connect communities along Bayou Lafourche is now critical energy infrastructure that Gulf of Mexico oil and gas operators and Americans everywhere depend on to fuel our nation. Completing the LA 1 Improvement Project is not just good business for the local communities and our state; it is a crucial investment in America's energy and economic security.

10 Things to Cook or Have on hand

When a Hurricane's a-Comin'

1. While your stove still works, fry some bacon. It doesn't need to stay in the fridge once it's cooked, and you can use it in a BLT (here are some tips for a killer one) or crumble it over a salad. It's also good on its own.

2. Roast a few heads of garlic. This also doesn't require refrigeration and it can add flavor to vinaigrette, which also stays good at room temp. Garlic becomes deliciously squishy when it's roasted, so you could spread it on toast, too.

3. Boil some eggs. Don't peel them—they'll stay fresh longer. The uses for hard-boiled eggs are endless: eat them straight, slice them for a sandwich, or chop them and throw them on top of a kale salad with some grated Parmesan.
4. Speaking of cheese, buy room-temp-friendly varieties, cured meats and jarred pickled veggies (cornichons, beets, anything!) and you and yours will enjoy a smorgasbord of goodies tomorrow night.
5. Stock up on canned tuna and chicken—a godsend during power outages.
6. Pick up several can of cannellinis. Then, drain them and, using a mortar and pestle, mash them with olive oil, salt and some of that garlic you roasted, and you've got bean dip.
7. Bake granola. Stored airtight, it will keep at room temp for a week.
8. Be sure to have peanut butter on hand. It goes great on bread or crackers.
9. Stock up on coal or fuel and be ready to fire up the grill. If you lose power this is a good way to save your meats.
10. And, last but certainly not least, get booze. Playing in the dark is always more fun with wine and whiskey on hand.
